How To Prepare Your Bike For the Tour:

- We strongly recommend you service your motorcycle at the nearest KTM service center. Ride the bike for a short weekend trip before the tour onset. Ensure that the following is being addressed at the service center with the help of the technician.
 - Inspect your suspension before the trip
 - Check the rear swing-arm bush for wear and tear and replace if necessary
 - Check your chain and rear sprocket for wear.
 - Your bike's clutch is really crucial for this trip. So make sure that your clutch is in order and adjusted properly without trace of any drag, slip etc.
 - Check your battery and earthing connections. The demanding terrain and the riding conditions that you and the machine are likely to encounter on the route could further accentuate existing problems.
 - Check all cables and if any are frayed, replace them.
 - It is critical that you know your machine's fuel consumption.
