

MADRAS MOTOR RACE TRACK

Duration	:	1 day
Location	:	Chennai
Track Length	:	3.7 km

HIGHLIGHTS

- 1-day training programme
- Learn with classroom-based and track session on racing basics, cornering, racing lines and advanced techniques like throttle control, counter steering, leaning etc.

DAY SCHEDULE

Classroom Session (C1)

Man & Machine

Physical & Mental Fitness

Difference between Road and Circuit and Braking Methods

Track Session (T1)

Deepen your understanding of your KTM machine by applying the learning of the classroom session. Get into the race-day mindset, follow your instructor and feel the bike react to every input of yours. Test out the braking method learnt in the classroom.

Classroom Session (C2)

Understanding Circuit Racing

Body Position and Rider Vision

Gear Shifts

Braking Methods - Front Braking

Track Session (T2)

Grasp the art of cornering and hitting the apex. Apply the body position and rider vision techniques to make yourself aerodynamic and set up for the next corner. Apply learnings of gearshifts and front braking to set your personal best on every lap.

Classroom Session (C3)

Throttle Control

Lean Angle

Steering Input

Counter Steering

Crash Management and Feedback session

Track Session (T3)

Master the one specific skill that determined greatness or mediocrity more than any other: throttle control. Push your limits on every lap by applying concepts of lean angle, steering input and counter steering and emerge as a better racer at the end of the track session.
